SUMMARY

I am a dedicated Product Designer with over 5 years of experience conceptualizing, designing, and delivering functional and scalable products. I seek exciting opportunities to break boundaries. I don't just solve problems, I fight for the tiny details that make tech feel human. Let's build something that matters to real people.

PROFESSIONAL WORK EXPERIENCE

Product Designer

Trocah (*United Kingdom*)

Sep 2023- Present

- Built comprehensive style libraries and handover files to ensure seamless development integration, **boosting team efficiency by 30%**.
- Designed interaction flows, wireframes, and prototypes, achieving a **75% improvement in product usability**.
- Led story mapping and user experience definition processes, driving a **45% increase in user satisfaction**.
- Solved complex UX challenges by delivering data-driven design solutions aligned with business objectives.

Senior Product Designer

AspaceLife Technology

Oct 2024- Jan 2025

- Shipped a design system for cross-platform consistency, **reducing QA-reported UI bugs by 60%** and **accelerating feature launches by 2x**.
